

**SHREWSBURY ELECTRIC & CABLE OPERATIONS
 ELECTRIC VEHICLE REBATES
 2024**

Purchases made on or before December 31, 2024:

SELCO customers with a fully electric vehicle are eligible for a rebate of up to \$700 (\$700 or the cost of the charger, whichever is less). Customers with plug-in hybrid vehicles are eligible for a \$200 or \$300 rebate after the EV charger in the Connected Homes Program. Refer to the table below for more information. Customers who receive the EV charger rebate are not eligible to receive the Connect Homes Program incentive for 36 months. If the EV charging unit is removed from the Connect Homes Program prior to completion of the agreed-upon term (36 months), a one-time charge of the rebated amount will be applied to the customer’s account to recover the rebate of the Level 2 charging device.

Vehicle Type	EV Charger Rebate
Fully Electric Vehicle	Up to \$700
Plug-in Hybrid Electric Vehicle with less than 15 kWh Battery Capacity	\$200
Plug-in Hybrid Electric Vehicle with 15 kWh Battery Capacity or Greater	\$300

*Purchases made in 2024 will remain eligible for rebates if applications are submitted within 90 days of the purchase date.
