### Residential Rate (R)

Bill Code 1R

**Effective May 1, 2025**

**MDPU # 191**

**(Cancels MDPU # 180)**

**Availability** - Service under this rate is available to all residential customers for all domestic uses in private residences or individual apartments of multiple dwellings.

**Rate:**

Customer Charge	\$ 12.73 per month
Distribution Charge	\$ 0.0433 per kWh
Transmission Charge	\$ 0.0287 per kWh
Generation Charge	\$ 0.0749 per kWh
NYPA Credit	(see below)
Generation and Transmission Adjustment	(see below)

**Multiple Dwelling** - When separate metering or service to individual apartments of multiple dwellings is impracticable, service may be furnished through a single meter but the kWh in each block and the Customer Charge will be multiplied by the number of dwellings connected.

**Minimum Bill** - Shall be equal to the Customer Charge.

**Customer Charge** - is a monthly fixed charge which applies to all customers. It is designed to recover costs related to metering, meter reading, billing and other administrative costs.

**Transmission Charge** - is the charge that recovers the cost to transport electricity from remote generating facilities where it is produced, to the SELCO service territory.

**Generation Charge** - is the cost for the electric power produced at power plants or purchased from the wholesale market. This charge covers the general categories of expenses including fuel or energy costs and capacity costs.

**Distribution Charge** - is the charge that recovers the cost of delivering electric power over SELCO's local distribution system to the customer's location.

**NYPA Credit** - is the savings as determined by SELCO from time to time, passed on to residential customers and is the result of low cost, federally licensed hydroelectric power projects in the State of New York that we receive power from.

**Generation and Transmission Adjustment** - is an adjustment, either a charge or a credit, to the Generation and Transmission Charges to reflect changes in the cost of power purchased by SELCO and transported to the SELCO service territory. The Generation and Transmission Adjustment will be calculated periodically in accordance with MDPU Schedule No. 179.

**Farm Discount** - Customers who meet the eligibility requirements for being engaged in the business of agriculture or farming as defined in M.G.L. Chapter 128 Section 1a at their service location are eligible for an additional discount from their distribution service rates. The discount will be calculated as 10% of the customer's total bill for service provided by the company before application of this discount. Customers who meet the requirements of this section must provide the company with appropriate documentation of their eligibility under this provision.

**Terms and Conditions** - The Light Plant's terms and conditions in effect from time to time, where not inconsistent with this rate, are incorporated as part of this rate.

Shrewsbury Electric & Cable Operations (SELCO) will furnish, install, maintain, and power supply as required to operate street lighting from dusk to dawn. SELCO's "Terms and Conditions", where not inconsistent with any specific provisions hereof, are a part of this rate.

**3.) RATE:**

Streetlight Charge:	\$2.50 per street light, per month
Distribution Charge:	\$0.0477 per kWh
Transmission Charge:	\$0.0285 per kWh
Generation Charge:	\$0.0908 per kWh
Generation and Transmission Adjustment (GTA):	see below

**Street Light Charge** – is a fixed charge per street light device. It is designed to recover costs related to billing and other administrative costs.

**Transmission Charge** – is the charge that recovers the cost to transport electricity from remote generating facilities where it is produced, to the SELCO service territory.

**Generation Charge** – is the cost for the electric power produced at power plants or purchased from the wholesale market. This charge covers the general categories of expenses including fuel or energy costs and capacity costs.

**Distribution Charge** – is the charge that recovers the cost of delivering electric power over SELCO's local distribution system to the customer's location.

**Generation and Transmission Adjustment** – is an adjustment, either a charge or a credit, to the Generation and Transmission Charges to reflect changes in the cost of power purchased by SELCO and transported to the SELCO service territory. The Generation and Transmission Adjustment will be calculated periodically in accordance with MDPU Schedule No. 179.
